Burlington Foundation is a public foundation created by, and for the people of Burlington.

We help people accomplish their charitable goals and address our city's most pressing needs.

Many of our donors and advocates are the descendants of the pioneering souls who founded our great city almost 140 years ago.

Our mission is simple. We are dedicated to having a significant impact in the Burlington community by building legacy endowment funds, providing charitable grants and supporting philanthropic partnerships.

We help community members invest in building a strong and resilient place to live, work and play for generations to come.

We Aspire to Touch Even More Lives

We believe in a community that supports all its' residents. Burlington is growing, as is its' boomer and senior population and through its diversity. We want to help more seniors, youth and families from low-income backgrounds, and encourage greater inclusivity with newcomers.

We want to support new opportunities for community members to grow through education, arts, sports programming and scholarships. We want to build a greener and healthier city for all of us.

We aspire to rapidly grow our managed assets to \$20-million, enabling our family of fundholders to celebrate granting \$9-million in grants since our founding.
